EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edmond DeFrank on 8 August 2005.

The last two limitations of claim 62 are replaced as follows:

wherein the compare module, in response to a match of the domain names, determines that the host server is associated with the self-contained packet;

wherein the monitor module, in response to a mis-match of the domain names, automatically determines that the host server is not associated with the digital tracking component; and

wherein the monitor module and the compare module are within a browser operating within the remote client.
